The resolution which passed Council Tuesday night providing for an electric light commission, was a long step in the right direction, and will facilitate the consummation devoutly to be wished" -that of lifting Wheeling out of the darkness at an early day.

THE assertion is ventured, without fear of successful contradiction, that very few of the Democratic members of the Legislature who voted in caucus for the resolution protesting against the passage of the Election bill, ever read that measure, and, more, that few of them can even state its provisions. THE purpose of Dr. Hattie Jones to establish in this city a private hospital for the treatment of nervous diseases deserves hearty encouragement. The need of such an institution in this State has long been felt. Dr. Jones' experience and medical skill, together with the fact that she is a woman with a woman's heart and feeling for suffering humanity, peculiarly fit her for the undertaking.

How many authors have written stories with all the names left blank, or with the actual names of their best friends or of the best known people, and afterward sat down with a directory, a tax list, the catalogue of a college, or the list of victims in a railroad disaster, to select or combine laboriously the right names to give to THREE physicians of Wheeling, after There physicians of Wheeling, after a careful examination, have declared our "small-pox patient" not suffering from the dread disease. Other physicians were of the opinion that it was a case of small-pox. It is not the first time that doctors have disagreed. The probabilities are that the latest verdict is the correct one, but no harm was done by taking due precautions pending a final determination of the case.

THE arrival of Henry M. Stanley in Wheeling will be an event in the city's Wheeling will be an event in the city's history. No adventurer or explorer of modern times has accomplished so much for the cause of civilization or received so much homage from the nations of the earth, and Wheeling people, who are apace with the times, will be happy to pay their share of tribute to one who has so richly earned the honors the the service. The medical fraternity of the world will be relieved of the long agony today. Professor Koch announces that he will publish the ingredients which enter into the composition of his famous lymph. This means to the world something more than a mere satisfaction of public curiosity. of the age, because he gives the world the benefit of his wonderful work without money and without price.

The Parkereburg Journal gets considerable of the marrow out of the spinal column of the tariff question in the following brief but sensible paragraph:

The McKinley bill in West Virginia alone release from special taxes after April 20 about 125 manufacturers of cigars, nearly one handred dealers in leaf tobacco, over six thousand dealers in manufactured tobacco, six manufactures of west virginians and every case of Catarrh that cannot be cured by the use of Hall's Catarrhs.

Sworn to before me and subscribed in my presence, this 6th day of December Virginians and every seneral storekeeper and grocer is benesited. But the Democrats say nothing about this. The growing and selling of leaf tobacco is made as frees as nother agricultural product; but the Benocrats don't toll this. No. They are yelling for free trade. If you say free lumber, free from and frees sail, they look wise, and if from West Virginia they dodge or say, of course not. O: Democrats as a darling for inconsistency?

The Governor's Message,

The Governor's Message.

Governor Fleming's first message to the Legislature is, if not brilliant, at least a readable document, and, in this respect, is worthy of being classed among the best of the many good State papera iseased by some of his predecessors. Being a practical business man, the Governor naturally treats his topics in a business-like manner.

With one or two exceptions his recommendations and suggestions are-wise prostration, sleeplessness, neuralgia, St.

The message is singularly free from The message is singularly free from the liability of attack from the opposition press, the only partisan paragraph it contains being the reference to the Endezal Election bill now panding in Federal Election bill, now pending in Congress, which reference we believe to be uncalled for. Its existence in the document spoils the symmetry of the well-constructed paper, judged from a non-partisan standpoint.

Election, January 22, 1891.

Now that the excitement incident to the Dempsoy-Fitzinimmons prize fight is over, the country will once more settle down to business.

THE Ohio County Democracy narrowly excepted a Waterloo in the fight for office at Charleston. Colonel White fell easily in the action, but Mr. Tracy went to was nearly two years before another would take place. So, as usual, the farmors were turned down and the places went to others—men who represented nothing in particular but their ability to control votes. The love of the Democratic borses for the farmers is affecting.
